Xourel
Rainmaker

— XRL1559

When passion
and pride meet . . .

XOUREL RAINMAKER – XRL1559

Rainmaker is the embodiment of what a true beef bull should be. A true paragon of Power and Masculinity!! He is by all accounts an absolute powerhouse of growth and structural soundness. Well defined muscling is balanced by a soft full-bodied fleshing and smooth coat!!

It is seldom that a junior Limousin bull shows this extraordinary level of growth and weight while still maintaining an easy stride and balanced walking ability.

His pedigree lacks no particulars, especially with a sire like La Rhone Escape!! There is no doubt that this FN0210 son is by far the bull with the most depth of body in the industry!! Add to that some of the Ferdi Naude charm out of FN0938 and you've bred this powerhouse of a sire. His dam also packs an ICP of 372/6 and is a key player in the Xourel ET program!!

Showring standards are high – Taking Junior Breed bull, Junior Interbreed bull and

Interbreed Breedplan bull at Vryburg and Lichtenburg in 2018!! With that he is also the highest ranked bull for 600-day weight in the country and packs growth figures not easily matched!! His first progeny shows great potential!! He promises to achieve great breeding standards for any herd!!
